

## **#1 Meeting Room Booking System**

## **Standard Smart Office Platform**

Our system is compatible with Microsoft Exchange, Microsoft Office 365 and G Suit (google). You can easily access to our software by using web application and native mobile applications on both IOS and Android.

## Ease of Use with 3-Step Approach

Step 1: Simply book a room through either your existing email calendar or our software.

Step 2: Room status display shall be automatically synchronized with the booking system.

Step 3: Check In & Check Out the room.

## Awesome & In Trend Design

Our Software has been designed to best suite any type of business. With more than 10-year working experience, the graphic user interface (GUI) has been developed from users' experience and today's technology. This is to make the most of your workplace and IT infrastructure.
